Change Job

AUDIENCE: Managers

OVERVIEW: This guide provides an overview of the steps involved to change a team member's job/details/transfer/promotion, etc. in Workday.

Editing Form Fields

The **Prompt** icon inside a field lets you choose a value from the available options. You can also start typing the value and press enter to view related search results.

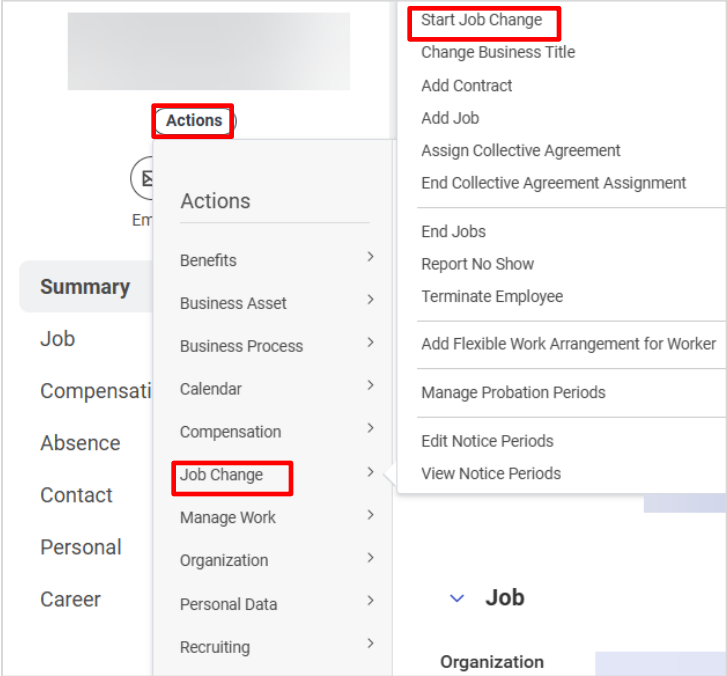
A red asterisk next to a field indicates the field is **Mandatory** and must be filled to submit a form.

PROCESS STEPS

Step 1. Initiate the Task

Search for the team member. Press the enter key to see all search results. Select the team member for whom you want to initiate the job change

Click the **Actions** button. Hover over **Job Change**, and Select **Start Job Change**.



Click the **prompt** icon to select **What do you want to do*?** You can select from the following options: **Job Title and/or Business Title change, Promotion, Progression (Lateral Move) or Demotion.**

- The reason selected determines the steps that follow and can vary between the options (Data Changes, Promotion, Progression/Lateral Move, or Demotion).
- For contingent workers you will only be able to select between Job Title and/or Business Title change and Change Contractor Details.

Step 2: Enter Transfer Information

Click the **prompt** icon to make changes:

Select - When do you want this change to take effect? Click the **calendar** icon to select the effective date of the change.
