Review/Approve Time Off

AUDIENCE: Managers

OVERVIEW: This guide provides the steps to review and approve time off/absence request for your team member in Workday.

Editing Form Fields

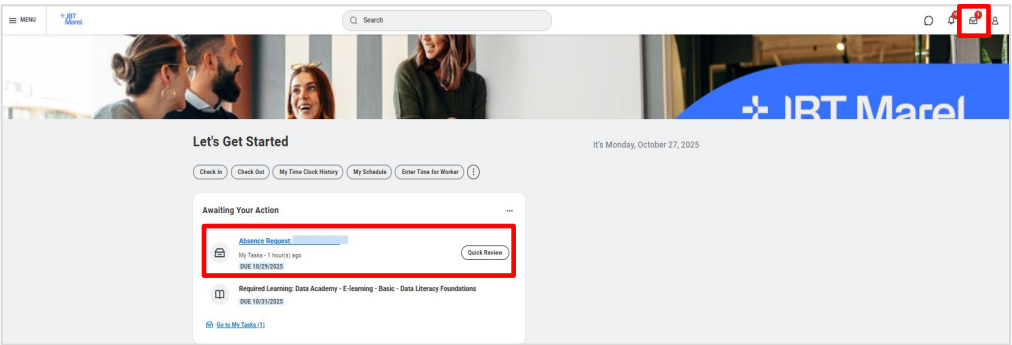
The **Prompt** icon inside a field lets you choose a value from the available options. You can also start typing the value and press enter to view related search results.

A red asterisk next to a field indicates the field is **Mandatory** and must be filled to submit a form.

PROCESS STEPS

Step 1: Initiate the Task

Click on the **Inbox** icon in the top right corner of the Workday Home page or directly on the Absence Request in your inbox under **Awaiting Your Action**.

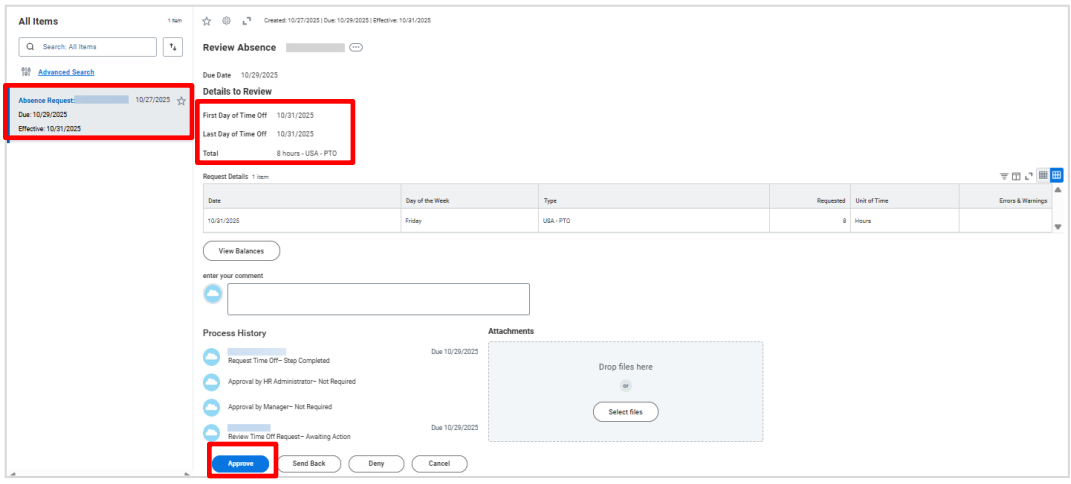


Step 2: Review and Approve Requests

From your **Inbox,** click on the **Absence** or **Time Off Request** to review details in the reading pane to the right.

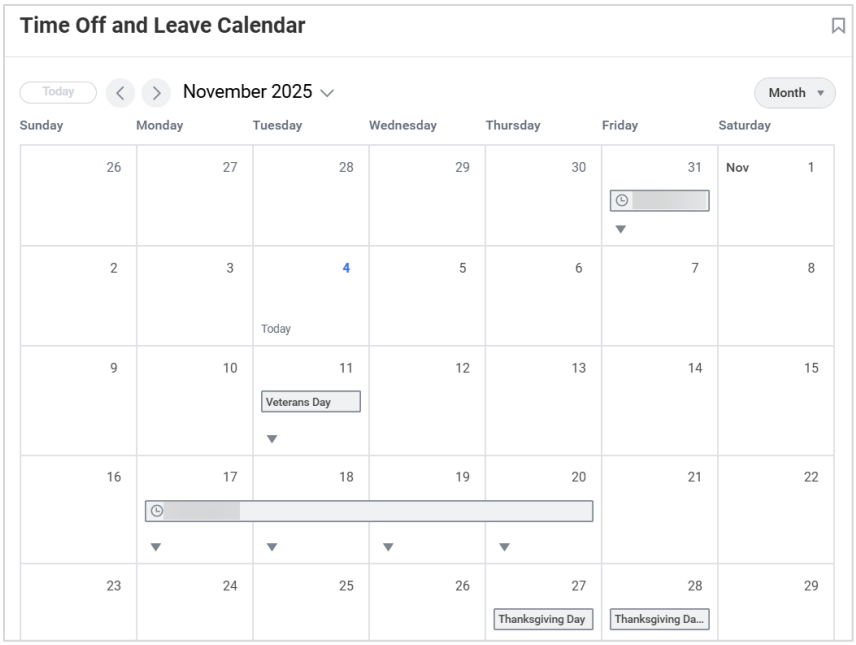
Check the dates and type of the absence. For applicable time off categories, you will see a button to **View Balances** prior to approving. The balances reflect the accrued time as of the current date.

- **Approve**: if all looks good, click the **Approve** button.
- **Send Back**: If information needs to be adjusted, enter your comment in the text box and click **Send Back**.



It is best to use the Send Back option to advise the employee that their request is not approved, otherwise, the employee may be unaware of the denial.

- **Deny**: Click **Deny** only if denying the employee's request. You will be required to **enter a comment,** but the employee **will not** receive a notification that their request is denied.
- **Cancel**: this will only close the **Inbox** task, it will continue to remain pending for your action.

People leaders can also review the **Time Off & Leave Calendar** to view all approved and pending absences within their team. This will allow people leaders to forecast coverage properly before approving/denying individual time off requests.


Refer to the View Team Absence Calendar help Article for instructions on accessing your team's calendar.
